

Dynasty Damnation

Ignominious Incarceration

An ancient prophecy was once for told to me,
It told me stories of an immortal dynasty
In a place beyond these mortal sands,
In these God forsaken lands
In the realm of darkest perplexity
To speak these words of such unholy ness
Would let the sons of blood finally reign free
Unleashing their insatiable blood lust
We mortals are but shadows and dust
Uncontrollably my body is taken over
I whisper the words...
The words wrap around me as the lights fade
And my mind is dismembered from my body
The prophecy fulfilled I have become an aid
To this darkest tranquillity
To speak these words of such unholy ness
Would let the sons of blood finally reign free
Unleashing their insatiable blood lust
We mortals are but shadows and dust
What have I unleashed upon this world
The reign of terror will now begin
The barrier between the realms is broken
The shadows surround the room
The reign of terror will now begin
Death will be the only end
They bring only death and leave only pain,
You should give up now for you have nothing to gain
Striking the fear into the very souls of man
There seems no hope for us now
But this is not the end of the prophecy
It tells of a mere mortal soul
That can end this nightmare
But still I cannot bring myself to see the end.
