Time

Cute Is What We Aim For

The roads are wrapped around your waist
They lead me place to place
I take trips from hip to hip
In fact, I've made a career out of it
I've always thought the left
Was your strongest side
But when it comes to you, now I can't decide
It's only a matter of time
I need the product of your fears
In the form of tears
It's the only way I can survive
It breaks my heart to see you cry
And baby, it's the only way I'll stay alive
Green eyes, blue skies
Natural disasters when she cries
Green eyes, they're mine
It's only a matter of time
Like the climate
You never know what weather you'll get
No denying you're the habit that I can't quit
It's only a matter of mine
I need the product of your fears
In the form of tears
It's the only way I can survive
It breaks my heart to see you cry
And baby, it's the only way I'll stay alive
Green eyes, blue skies
Natural disasters when she cries
Green eyes, they're mine
It's only a matter of time
It's only a matter of time
You're tainted, I'm shaking
I hope you turn around in time
Tide's changing, I'm waiting
You and I are one of a kind
(You're changing)
I've been a both of our fears over my sore ears
I still can't pick my favorite place
(Don't make me)

The contour of your lips, they match your continents
And I still love the way that you taste
I need the product of your fears
In the form of tears
It's the only way I can survive
It breaks my heart to see you cry
And baby, it's the only way I'll stay alive
Green eyes, blue skies
Natural disasters when she cries
Green eyes, they're mine
It's only a matter of time
It's only a matter of time
