The Moment I Feared

Slick Rick

Well, I'm sittin' on my lunch break, grinnin' my teeth
(My teeth)
It's the last day of the week, boy, what a relief
(Relief)My muscles kind of ache, they felt rigid and stuff
So, I looked around and I smoked this big fat spliff
Now I'm happy as can be, I'm in this pothead spell
I put some Visine in my eyes so that no one can tellIt's 12:55 almost time for the bell put the breath mints
In the mouth so that the mouth don't smell
Now back on the job, I don't bother no one
I keep strictly to myself and all my work gets doneNow, the job's finally over it's time to have fun
And I'm hangin' out with Trevor there's a kid named John
Got real drunker than a skunk and happy as can be
We went to the Latin Quarters and we got in freeScoopin' all the girls like nuttin' with my trunk jewelry
'Cause I'ma fly brown brother and you can't school me
Boogie Down was performin' hey, they ain't no joke
And a bunch of Brooklyn kids was lookin' all down my throat
Was it my big chains with the big plates on 'em?
Then they rolled on me and told me to run 'emThis was the moment I feared
"Hey yo, homeboy take off your chains man
'Bout to hurt you real fuckin' bad, I'm gonna fuck you up"
This was the moment I feared
"Yo, what's the matter stupid? Take the shits off man
The fuck is up?"I said, "They're really not real, they're just a front for the girls"
Then a whole bunch of fists just, caved my world
I was in pain, so ashamed, I wish I had not came
Had to kindly pick up my face and then ride home on the trainThen, I went to an open store that's where I brought me a quart
Then, I went to the park, and I sat and I thought
I seen Danny Boy though he's with his girl named Sarah
In one of his cars, I think this one's a BraveraShe calls out to me but I really couldn't hear her
So, I went just a little bit closer so I'd hear a little clearer
She said, "I need Veronica Blades that's right near Tilden"
I said, "I know where that's at cause that's right next to my building"I gave 'em the information and they went on their way
I went home and there I slept til almost three the next day
Then someone knocked on my door, I opened up, no quit!
It was Sarah with some magazines and a bag named KitShe tried to use me and seduce me and at first I wasn't with it
Then we did it and we did it and we did it and we did it

She said it was great, she said she's glad we had done it
The elevator came and Danny Boy was on itThis was the moment I feared
"Hey yo, what the fuck's goin' on here?
What you doin' to my girl homeboy?"
This was the moment I feared
"Oh I just know y'all didn't just finish fuckin'
I just know y'all ain't just finish fuckin'"Well, he was huffin' and puffin and he swung at me [unverified] word
So, I pulled out my jammy and I silenced the nerd
Then he was dead two in the head I took the cash and the Visa's
She said, "Don't worry about a thing just make sure nobody sees us"We went back to her apartment, there was blow in the freezers
She said, "We're rich we're rich we can have whatever will please us"
Now I don't hang with no one who ain't good for my health
So I put the sugarhead out and I went for selfNow, I was rich as I was rich I could have whatever would please me
Now, I could wear real gold in front of folks that would tease me
Yah me, I'll be a new neighborhood dad
Cats'll roll up on me screamin', "Yo, Rick my man"I guess, I was too fly word up I'm sorry to say
Ya see a cop rolled up on me and told me, "Make my day"
I said, "Relax brother", but he had proof that I had done it
Yah, they had false hair on underwear with my fingerprints all on itThis was the rise and fall of my fast lane style
And I was the main event on the TV for a while
But now I'm in jail doin' life and I'm scared
Some kids snuffed me cold and greased me where no one daredThis was the moment I feared
"Turn around nigga, spread your cheeks"
(Ha, ha, ha, ah)
This was the moment I feared
"Uhh, aow, stop, stop, aha
