

Le le Low

Hot Hot Heat

Mediocrity's got me so opportunities have been slow.
Sentiment has got me feeling low.
My left back speaker's blown.
Left the radio on.
Who left the door unlocked?
Now my hit's stolen.
Where's all your passion gone?
Where's all your fashion gone?
Where's all your magic gone?
Now you feel famous?
Encyclopedias sold through the media.
Fashion is feeding us identification.
Consequential because she doesn't but he does.
Metric systemic buzz is making me anxious.
Applaud the effort you display,
as long as it don't sound the same.
It's second rate you know.
Average if not below.
It's second rate you know ohohoh
My left back speaker's blown.
Left the radio on.
Who left the door unlocked?
Now my hit's stolen.
Where's all your passion gone?
Where's all your fashion gone?
Where's all your magic gone?
Now you feel famous?
le le le le le low
le le le le le low
le le le le le low
Sentiment has got me feeling le-le-le-le-le-low!
le le le le le low
le le le le le low
Sentiment has got me feeling le-le-le-le-le-low!
le le le le le low
le le le le le low
sentiment has got me feeling
sentiment has got me feeling
sentiment has got me feeling

sentiment has got me feeling low
I just shouldn't even say... but it all sounds the same. oh no
Mediocrity cold killed your act.
I just shouldn't even say... but it all sounds the same. oh no
Mediocrity cold killed your act.
I just shouldn't even say... but it all sounds the same. oh no
Mediocrity cold killed your act.
Encyclopedias sold through the media.
Fashion is feeding us identification.
Consequential because she doesn't but he does.
Metric systemic buzz now i feel anxious
My left back speaker's blown.
Left the radio on.
Who left the door unlocked?
Now my hit's stolen.
My left back speaker's blown.
Left the radio on.
Who left the door unlocked?
Now my hit's stolen.
