

# The Beginning Of Time

**Ben E. King**

The beginning, the beginning of time Rivers keep rolling  
They run to the sea  
Since the beginning of time The birds that keep on a-flying  
Where no man can be  
Since the beginning of time Oh, my darling, let me tell you now  
Long ago and far away  
With just a hand full of faith  
In seven days, in seven nights  
He built the world that we live in today And so it was written  
You were made for me  
Since the beginning... of time And I just wonder do I have time enough to say  
I just want to say that I  
I thank the heaven above for making me  
My destiny, my love  
Hmmm and you're mine  
Baby, you're mine  
I wonder have I told you you're mine  
Baby, I said you're mine  
Let me tell you  
Ah said since the beginning of time !
