

# Broken Tonight (feat. VanVelzen) [Live]

## Armin van Buuren

You see the world through your window  
You don't even go outside anymore  
Only feel safe feeling hollow  
You think your scars are way too deep to be cured  
You hide your heart in the shadows  
So afraid to open up to anyone  
But I can see your faded halo  
And I can make it burn again, like the sun  
If you stay for a while  
Let me hold you tonight  
Just open your eyes you will see the light  
But stay for a while  
Let me hold you tonight  
Just open your eyes you will see the light shine  
You don't have to be frozen  
You don't have to be broken tonight  
I can see your faded halo  
And I can make it burn again, like the sun  
Just stay for a while  
Let me hold you tonight  
Just open your eyes you will see the light shine  
You don't have to be frozen  
You don't have to be broken  
You don't have to be broken tonight
