

# Touch Me

Chris Brown

I don't know if it's your scent or your kiss,  
but girl i love it,  
and time after time, you give me,  
one of the greatest gifts,  
i want you to,  
I want you to, love me,  
like you've never loved nobody else,  
and i want you to, touch me,  
like when you touchin' yourself,  
yeah baby,  
So baby come over (I'm on my way girl)  
If you take your time you can love me right,  
(I can love you, take your time girl)  
If you want me to slow it down,  
(I do, do you)  
I will, (Will you) I will,  
I'm bitin' on the pillow,  
tryin' not ta, make a sound,  
Girl it's okay, 'cause i want you to feel me, yeah  
'cause your daddy's girl,

I'ma show you how to love,  
show you how to love me girl,  
so lay down right there,  
so you can hold my head while I'm kissin' no your thighs,  
girl i jut need it one more time,  
I want you to, love me,  
like you've never loved nobody else,  
and i want you to, touch me,  
like when you touchin' yourself,  
And as i look into your eyes,  
your body screams for my love,  
no fear, just me,  
and as you feel me inside,  
my passion fits like a glove,  
no more fear, just you and me,  
I want you to, love me,  
like you've never loved nobody else,  
and i want you to, touch me,

like when you touchin' yourself.
