

# Let It Be Now

## Survivor

I've been waitin, tired of waitin  
For your song, your love song  
Time just drags by anticipatin  
So much good love has come and gone  
And every minute we spend apart  
Is just time on my hands  
It's breakin' my heart  
Won't you please, please? Let it be now, I can't wait forever, no  
Let it be now, I need you today, girl  
Girl will you ever know? Let it be now  
Well, I get hungry, so damn hungry  
For your love, your sweet love  
Are you teasin' me for a reason?  
Need to know, why so slow?  
And every minute we spend apart  
Is just time on my hands  
It's breakin' my heart  
Won't you please, please? Let it be now, I can't wait forever, no  
Let it be now, I need you today  
And every minute we spend apart  
Is just time on my hands  
It's breakin' my heart  
Won't you please, please? Let it be now, I can't wait forever, no  
Let it be now, I need you today  
Girl will you ever know? Let it be now  
My love won't wait, my love won't wait  
My love won't wait, my love won't wait  
My love won't
