

Love Is My Disease

Alicia Keys

When you're gone it feels like,
my whole world's gone with you
I thought love would be my cure
but now it's my disease
i try to act mature
but I'm a baby when you leave
how can i ever get used to being without you?
(yeah)

baby, baby, baby, baby
am i addicted
when i need you here all the time?
and I'm not sure if this is healthy
is it a sickness?
'cuz i feel like I'm losing my mind
and i know that there's no medicine
nothing i can take, no remedy
baby please stay
(ohohooohh)

When you're gone it feels like,
my whole world's gone with you
I thought love would be my cure
but now it's my disease (my disease)
i try to act mature
but I'm a baby when you leave
how can i ever get used to being without you?
oh oh oh baby, baby, baby
i get a fever
just the thought of you leaving my side

ohohhhh
and i'm not the same 'til you're back holding me
that's all i need
(oh yeah)

When you're gone it feels like (when you're gone baby)
my whole worlds gone with you (gone with you)
I thought love would be my cure
but now its my disease (my disease)
i try to act mature
but I'm a baby when you leave

how can i ever get used to being without you
woah woah
here's what I'm going through when your gone
some serious symptoms of withdrawal
(ohohoh)
so sick of turning in my bed
waking up drenched in a cold sweat
(ohohoh)
lying here lonely for you
what am i supposed to do
when i'm stuck and i cant get enough of your lovvvee
Ohohoh woahhh Baby
When you're gone it feels like (when your gone baby)
my whole world's gone with you (gone with you)
I thought love would be my cure
but now it's my disease (my disease)
i try to act mature
but I'm a baby when you leave
how can i ever get used to being without you?
