

# Young Hearts

## Cappadonna

[Chorus: Blue Raspberry]

You left me here alone with a shine  
Our hearts were strong but I couldn't find  
My world alone how could I break my home  
Still I doubted you and still your strength  
Enchanted me you was the father to my child  
And a man to me now I'm sung of strong hearts  
Run free run free young hearts  
Young hearts run free  
Run free young hearts[Cappadonna]  
Girlfriend, what you did was wrong  
Even though the love was strong, you moved on  
Never had faith in the Don, you was safe  
With the Don, and then you walked out  
A broken house, a broken heart  
Cry for my dart, we had a plan  
We was woman and man, the hourglass  
Held the sand, I held you like contraband  
But you didn't understand when the four devils  
Came inside of your life that night  
We argued and fight, you knew it wasn't right  
Fucked up our life, my thoughts come stronger  
Every ounce, it's not my fault  
That you wanted to bounce, now you tellin' me  
That you cleaned up your act, beep me every time  
But I never call back, that's how I felt  
When you was makin' me crack  
Me leave wifey for you??  
I'm crying  
I'm crying[Chorus][Blue Raspberry]  
Young hearts, run free  
Run free, young hearts  
Young hearts, run free
