Darling

SayWeCanFly

I met you in Boston
On the city streets in the cold, cold snow
I almost got lost in
All of the people who were tryin' to go, go, go
Would you care for a drink love
Cause we're goin' out after the show, show, show
I met you in Boston
But there's something that you got to know, know, knowThat I don't believe in love
So don't get your hopes up darling
Cause I don't believe in love anymore
I used to believe in love
But I got my hopes up darling
So I don't believe in love anymoreI met you in London
Inside the walls of a hotel room
And we had some fun yeah
Moving around until we could not move
Would you care for a drink, love?
We both know I'm leavin' soon, soon, soon
I met you in London
But there's something that I've got to tell youThat I don't believe in love
So don't get your hopes up darling
Cause I don't believe in love anymore
I used to believe in love
But I got my hopes up darling
So I don't believe in love anymore
