Critical Madness

Critical Mass & Mad Piper

Mind snapped thoughts of death
Demented voices in his head
Chainsaw victim covered in blood
Severed body left for deadBloody killing spree brain fried eternally
Psychotic mission of death
Critical madness self inflicted pain
Slicing his face to shredsBrutal blow to the face
Sentenced to death by a swing of a mace
Blown out brains with a grenade
Hallucinating brain decayedBloody killing spree brain fried eternally
Psychotic mission of death
Critical madness self inflicted pain
Slicing his face to shredsOkay I'll do itViolent breakdown truth of dare
Cut your flesh to the bone
No hope for a normal life
Insane asylum is your home
