Blame It On the Moon

[Katie Melua](#)

Gonna blame it on the moon

Didn't want to fall in love again so soonI was fine, feeling strong

Didn't want to fall in love with anyoneNow that it's gone too far to call for a halt

I'll blame it on the moon, 'cause it's not my fault

I didn't think that this would happen so soon

So I'll blame it on the moonI was happy to be free

Didn't think I'd give myself so easilyGuilty feelings in the night

As I wonder is it wrong to feel so rightNow that it's gone too far to call for a halt

I'll blame it on the moon, 'cause it's not my fault

I didn't think that this would happen so soon

So I'll blame it on the moonNow that it's gone too far to call for a halt

I'll blame it on the moon, 'cause it's not my fault

I didn't think that this would happen so soon

So I'll blame it on the moon

So I'll blame it on the moon
