Shame

Chris Palser

It's time I go
there's one thing you should know
the one thing we've shown
apart we stand united we fallthat night you went away
where did you stay
this game
I can't playBut I can't let you go
it's this pain
that I just can't show
was I wrong
I don't know
its a shame
but I guess
that's the way life goesWhat did you mean
What will be will be
Why could I not see
When will I wake up from this dream
that night you went away
where did you stay
this game
I can't playBut I can't let you go
it's this pain
that I just can't show
was I wrong
I don't know
its a shame
but I guess
that's the way life goesSometimes life
its not what it seems
If I'd only known
the bitch you could be
life goes on
but now without you
I won't be here
for you to lie to
anymore
its trueBut I can't let you go
it's this pain
that I just can't show

was I wrong
I don't know
its a shame
but I guess
that's the way life goes
its a shame
but I guess
that's the way life goes
its a shame
but I guess
that's the way life goes
