Turn Around

Josh Wilson

I'm ready to fall in love
So what are you running from?
Well, I'm what you're looking for, quit looking for yourself
Well, I'm right behind you, why are you looking somewhere else?Would you turn, would you turn, would you turn around?
Would it be that hard to do?
If you turned, if you turned, if you turned around
I'd be right in front of youYou're searching for something more, something more
And you're walking right out my door, walk right out, out the door
You're leaving home to look for the home you have with me
Like flying around the world to get across the streetWould you turn, would you turn, would you turn around?
Would it be that hard to do?
If you turned, if you turned, if you turned around
I'd be right in front of youQuit over thinking love, stop thing that I'm not enough
'Cause you don't need anything that you don't have here with meWould you turn, would you turn, would you turn around?
Would it be that hard to do?
If you turned, if you turned, if you turned aroundCould you turn, would you turn, would you turn around?
Would it be that hard to do?
If you turned, if you turned, if you turned around
Well, I'd be right in front of youYou are over thinking love, stop thing that I'm not enough
'Cause you don't need anything 'cause I'm right in front of you
Oh I'm right in front of you, oh I'm right in front of you
