Walk Away

Paradise Lost

And in the summer when the clouds show through
I might go the same way too if
You and I could talk together
Well, what I supposed to do withYou and I would walk together
Then with always close around and
Now you gaze towards the doorway
When the weather comes falling downAnd when the rain comes down
Would you choose to walk or stay?
Would you choose to walk?
Would you choose to stay?
Would you walk, walk, walk, walk, walk away?And when the rain comes down
Would you choose to walk or stay?
Would you choose to walk?
Would you choose to stay?
Would you walk, walk, walk, walk, walk away?Though when the day is nearly through
I might see the same way too
If you would name the things that bring you down on me
So I could see it's not quite trueIf you don't really know
Or understand the circumstance
Behind, then I might clear your mind
And you won't have to go soAnd when the rain comes down
Would you choose to walk or stay?
Would you choose to walk?
Would you choose to stay?
Would you walk, walk, walk, walk, walk away?
