

Enemy

Miggs

I saw on eBay they're selling soul
Name your price, honey, soon enough you're sold
You can get whatever it is
That you truly want the most I give up, I give up, I give up, I give in I'm not the enemy
You know?
I'm not your enemy
You know, you know, you know
You look so safe behind that smile
But those are the lines somebody has to earn
And how many chances you thinking of trying
How long you feel like making me squirm? Give up, give up, give up, give in I'm not the enemy
You know?
I'm not your enemy
You know, you know, you know
I lay down my arms, put my hands in the air
I won't shoot first doesn't mean I fight fair
Lay down your arms put your hands to the sky
It's easy to leave, so much harder to try I give up
