

# FU (feat. French Montana)

## Miley Cyrus

Oh you broke my heart  
I told you I was weak for love  
But then you went around  
And did what you wanted to do  
And now I'm crying, crying Ooh it seemed like everything was going fine  
I found the love that I thought was gonna last  
Then I accidentally saw a few things in your cell  
I even LOL'd man I should've known  
Why, why you're doing what you do  
You, you might as well just tell the honest truth  
See I'm not really down with this  
This ain't no texting shit  
Know I got no biz, but it is what it is I don't really have much to say  
I was over it the second that I saw her name I got two, ooh ooh letters for you  
One of them's F and the other one's U  
'Cause what you gotta do, is go get yourself a clue  
Only two, ooh ooh letters to choose  
One of them's F and the other one's U  
SMH, I'm pressing send on you Could've been this, could've been that  
We done been there, we done been back  
You ain't with it, could've said that  
Why you tripping, let me hear that  
I ain't trying to argue all morning  
I do it all for you,  
You know you're my right eye  
Baby let me show you Oh I know what's been going on  
Don't even try to act like Mr Super Nonchalant  
What makes you think I'll stick around  
I'm not as stupid as you sound and you sound really dumb right now  
From A to Z, ooh  
I got a lot of nasty things, blowing up in my head  
But none of them are worth my time  
You're not even worth this rhyme  
And I don't, I don't give a flying I don't really have much to say  
I was over it the second that I saw her name I got two, ooh ooh letters for you  
One of them's F and the other one's U  
'Cause what you gotta do, is go get yourself a clue  
Only two, ooh ooh letters to choose  
One of them's F and the other one's U

SMH, I'm pressing send on you Ooh ooh two letters for you yeah, letters for you  
What you trippin' on, huh?  
Girl you know you're wrong, huh  
Don't let these girls drive you crazy I don't really have much to say  
I was over it the second that I saw her name I got two, ooh ooh letters for you  
One of them's F and the other one's U  
'Cause what you gotta do, is go get yourself a clue  
Only two, ooh ooh letters to choose  
One of them's F and the other one's U  
SMH, I'm pressing send on you
