I Used to Hide

LAB

Every time I close my eyes
I'm alone inside my mind
Every breath I breathe is mineEvery time I go outside
I'm afraid one day I might
No more make it back insideSuddenly you changed my mind:
I used to fake
I used to hide
Every time you're by my side
I never fake I never hideNow you're here and read my mind
Say I'm different, but all right
Help me find I'm safe outsideSuddenly you changed my mind:
I used to fake
I used to hide
Every time you're by my side
I never fake I never hide[x2]
