

# Look Busy

## Lucy Wainwright Roche

No, it's not her that's calling  
It's just me  
So settle your jumpy, broken heart  
Just thought I'd check in on you  
Wanted to see  
Are you replaying every sorry part? One day without notice, you will see the light of day  
This I can nearly guarantee  
Forgetting to remember that she's even gone away  
In the meantime, look busy Think for a moment back to the autumn that we met  
Upon a Continental Rail  
All of the heartache you feel hadn't happened yet  
And yours was a brightly blowing sail Remember how we laughed about the diamonds of the mist  
Wonders of the world for us to see  
You'll smile again when you are back and at your best  
In the meantime, look busy
