

# The Vulture Acts I & II

## Gallows

When you work for the father your sin is never saved  
You carry the net and he holds the spade  
You will drag the lakes, he will rob the graves  
You will be remembered, no one will speak your nameCursed are the places you have been  
You lead us there and forced us in  
Take the girls to become the daughters  
And if the horses won't drink drown them in the waterWhen you work for the father your sin is never saved  
You carry the net and he holds the spade  
You will drag the lakes, he will rob the graves  
You will be remembered, no one will speak your nameCursed are the places you have been  
You lead us there and forced us in  
Take the girls to become the daughters  
And if the horses won't drink drown them in the waterWhen you work for the father your sin is never saved  
You carry the net and he holds the spade  
You will drag the lakes and he will rob the graves  
You will be remembered, no one will speak your nameLive by the sword, die for the lord  
Call down the vultures to dine on the corpseCursed are the places you have been  
You lead us there and forced us in  
Take the girls to become the daughters  
And if the horses won't drink drown them in the waterThis is the end
