

# Razor

## Chaosphere

Razor, making headlines and headstones  
Breaking hearts and breaking bones  
Your life's a performance  
So let the cameras roleRazor, you know it's all too good to last  
If it's not too much to ask  
Slow down, slow down, slow down  
Before you crash, oh, before you crashRazor, you're such a fatal attraction  
Your friends are only for fashion  
We may last for a while  
But we'll go out of styleRazor, you know it's all too good to last  
If it's not too much to ask  
Slow down, slow down, slow down  
Before youCrash, crash into my arms  
Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issuesCrash, crash into my arms  
Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issuesCrash, slow down before you  
Crash slow down, slow down  
Crash slow down, slow down, slow downRazor, razor, razorCrash, crash into my arms  
Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issuesCrash, crash into my arms  
Put down your guard, oh, disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issuesYou think this whole world's against you  
It's never your fault, we're the ones with the issues
