

# Get Out

## ZiGGi Recado

You should get out,  
Baby you should get out,  
Baby you should get out I like the apartment, she love the villa  
I like rum she don't drink liquor  
I like to party, she love to simmer  
I like Lexus, she love Bemma  
I am werewolf and she is a vampire  
I'm on Facebook she is on Twitter  
I like sweet, she likes bitter  
She likes diamonds and some fire  
Yes gold and platinum she admire  
Yo this girl is hot like fire  
Take a love form me expire  
Something different she desire  
Couldn't believe this ??suit andspire??  
I'm in the game and she is the empire  
Try to do everything she require  
But everything I try just backfire  
She tells me I got to many letters  
I am too sneaky and not undercover  
Said you think you smart and clever,  
But anything you do I do better So.. She know what she need and  
We can't fight this feeling  
This is what she want me to know.. yeah..Chorus:  
She said get out  
She said get out of my house  
Get out of my life  
Leave the keys behind and  
Get out  
She said get out of my house  
Get out of my life  
oh....You should get out,  
Baby you should get out,  
Baby you should get out This girl she just keep going  
Ready for the world and she is not slowing  
Only ?? keep growing..  
New kinda love to me she's showing.  
Say what's up she says I am living, don't need you right now I am chilling  
I said baby I am ready and willing, All of your need I will be fulfilling

Stop shoot me down like villin?, say don't do me like this, you' re killing  
She don't wanna heard a word I am saying  
Everything flap like right from the beginning  
I like the bedroom, she like the kitchen  
I like smoking, she like fishing  
Something is wrong, something is missing  
When she's gone I keep reminiscingShe know what she need and  
We can't fight this feeling  
This is what she want me to know.. yeah..Chorus:  
She said get out  
She said get out of my house  
Get out of my life  
Leave the keys behind and  
Get out  
She said get out of my house  
Get out of my life  
oh....She never wants to convesate? whenever that I call on  
I make? her heart so many timesShe don't like my lifestyle, she says she won't get caught up.  
There is only one thing left to say.You should get out,  
Baby you should get out,  
Baby you should get outYou should get out,  
Baby you should get out,  
Baby you should get outNoo Noo..Chorus:  
She said get out  
She said get out of my house  
Get out of my life  
Leave the keys behind and  
Get out  
She said get out of my house  
Get out of my life  
oh....
