Big World

Texas

Met you on a Monday, never knew how far we'd go
Took your time to tell me someone else was long ago
The world keeps on turning, trying to find my feet
Searching for the rainbows, I'm just tryna make ends meet
Never tried to tell you how to make your life go smooth
Never tried a point of view, were only me and you
The world keeps on turning, trying to find my feet
Searching for the rainbows or I'm heading for the street
Times are changing every day
Times are changing
I find it hard with every breath I take
I wonder why we make mistakes
But I can't wait
But I can't wait
But I can't wait another day
Maybe it's the time for you to pack it up and go
Sick of hearing the same old song, you locked it in too low
The world keeps on turning, trying to find my feet
Searching for the rainbows, I'm just tryna make ends meet
Times are changing every day
Times are changing
I find it hard with every breath I take
I wonder why we make mistakes
There's just some things
That you can't change
And I can't wait another day
The world keeps on turning, trying to find my feet
Searching for the rainbows, I'm just tryna make ends meet
Keeps on turning
The world keeps on turning
Keeps on turning
It keeps on turning
It keeps on turning
Keep on turning
It keeps on turning
The world keeps on turning
It keeps on turning
It keeps on turning
It keeps on turning

It keeps on turning
