

Nobody But Me (Ampersand Remix)

[Sofia Reyes](#)

This ain't enough
Might be too much
Maybe we're just foolish now
Stuck here in love
What's so hard to figure out
We both know that we care
Girl I don't mind spending my time
Learning all the perfect ways
To hate you with love
I'll be counting down the days
'Til I don't need you
Just don't let nobody but me
Break your pretty heart to pieces
Give us time to see what we could be
Even if we choose to leave it
I'm selfish, so be it
Cause I'd rather be here hurting with you
If I'm foolish, I'll be it
Cause that's just me
When it comes to you
Too close to right
Too far from wrong
I don't wanna wait too long
To kiss you tonight
Any second we'll be gone
And life won't wait for us
So terrified
Knowing I might lose
Who I'm supposed to be
To be by your side
Falling from this gravity
Would you chose love, or pride?
Just don't let nobody but me
Break your pretty heart to pieces
Give us time to see what we could be
Even if we choose to leave it
I'm selfish, so be it
Cause I'd rather be here hurting with you
If I'm foolish, I'll be it
Cause that's just me
Before we say yes
Before we say no
Before we hold on
Or decide to let go

Let's make it worth it
I hope you're worth it
Cause I'll be your fool
I'll be your best friend
I'm crazy for you
This love is so reckless
But if we're letting go
Just let me know But just don't let nobody but me
Break your pretty heart to pieces
Give us time to see what we could be
Even if we choose to leave it
I'm selfish, so be it
Cause I'd rather be here hurting with you
If I'm foolish, I'll be it
Cause that's just me
When it comes to you
