Finally Fine

Liquido

please me
and feel the friction of dawn
how long did it take
to walk that waytoo fast
when we were heading for the sun
and we didn`t proceed
for we could not succeedrefine, refine the senses we havedefine devinerefine, refine the senses we haveit`s finally finetease me
just where your fingerprints where on
it`s not that weird
on my waywe found
there won`t be anything to miss
and I wouldn`t say:
keep on waitingrefine, refine the senses we havedefine devinerefine, refine the senses we haveit`s finally fine
