Turn the Light On

Cozi Zuehlsdorff

I feel the expanse
Toes curl oâ€™re the edge, connect
To you, do all that I can
All this weight bendinâ€™ my back, I came back
Cause I can't waste one more drop of water
A rising sun for a fading daughter

Turn the light on
The light on
The light on
The light on
X2

Loved in a pictureless frame
Lost and found in amazement, I can trace it
From behind and before
Youâ€™ve been writing my story, paint it for me

I'll wait a day, I'll wait some more
Just please hold my hand lying on the floor
I'm in the dark, I pray to see
When will you say what's to come of me

Turn the light on
The light on
The light on
The light on
X2

Iâ€™m comatose, more than most
People I never knew standing close
I'm in the dark, I pray to see
When will you say what's to come of me

Turn the light on
The light on
The light on
The light on
X4
