Trade It All

Capital Soiree

I didn't know you when I walked down to,
to see an old friend.
You said you'd seen me as who I wanna be.
No dont pretend.

I heard what you said,
you said what you meant, I couldn't comprehend.
Someone like you,
someone like me,
default to disbelief.

So when you see my passing by daily,
you waved to me, but you dont see.
Id trade it all trade it all for a chance to be,
with you.

So now the time goes a little quicker.
I start to second guess
all the things I said when im with you.
Well did I mean it then.

I heard what you said
did you say what you meant.
Cause I still can't comprehend.
Someone like you,
someone like me
default to disbelief.

So when you see me passing by daily
you wave to me but you dont see.
Id trade it all, trade it all for a chance to be
with you.
Id trade it all, trade it all for a chance to be
with you.
