

# Without You

Kevin Rudolf

I was hangin off the side of the road  
You sit in silence & you hear every word  
You get so lost  
You lose track of time  
Reaching for a line  
And now its funny 'cuz it's making me see  
That I was here before I ever believed  
Now I'm stuck up here alone & afraid  
Looking for a sign  
Chorus:  
So tell me, do you dream at night  
Are those dreams for mere survival  
Reaching for a satellite  
And I don't want a world without you  
Without you  
But now I'm so numb that I can't feel  
You're just so loose and that you don't know whats real  
You're so thin that you can't even breathe  
But it can make you free  
And now I found out what I wanted to know  
I heard you saying to me "please don't go"  
And now I wish you were here by my side  
I'm running out of time  
Chorus:  
So tell me, do you dream at night  
Are those dreams for mere survival  
Reaching for a satellite  
And I don't want a world without you  
Without you  
Without you  
Something about the way it feels  
Something about the way it tastes  
Something about what I can't have  
That draws me closer  
So tell me do you dream at night  
Are those dreams of mere survival  
Reaching for a satellite  
And I don't want a world without you  
(tell me do you dream at night)  
Without you  
(are those dreams of mere survival)  
Without you  
(reaching for a satellite)  
And I don't want A world without you

(2x)Without you (x3)
