## Black Marble

I miss the sunlight hour when I feel tired  
It's always on the mind  
I miss your Sun right now, when I'm inspired  
To hold you in the night Why won't you come right out?  
Why can't you come right out?  
Why won't you come right out  
Say what's on my mind? Upside down, I kept your love tied down  
To hold you in the night  
I kept your love tied down, and I conspired  
To hold you in the night  
Why did you come right out?  
Why did you come right out?  
Why did you come right out  
Say what's on my mind?
