

# Nights Like This

**Brenn Hill**

Nights like this I wonder if I'm dreamin'  
You dance as if your feet are off the ground  
Almost like the world has stopped to watch us  
Waiting for that moment you touch down

CHORUS:  
So nights like this I stand a little taller  
To prove that I am worthy of your kiss  
I live for the spell you put me under

And the way I feel on nights like this I know tomorrow I'll be leavin'  
With the memory of tonight still in my mind  
And it's a long and lonesome highway

That takes me from this love I leave behind

CHORUS: Girl, I never take for granted  
The tender dying moments of our time  
Memories are all that get me through

Until we never have to say goodbye

CHORUS: And the way I feel on nights like this
