

# Here I Come

## Blue Six

I'll try to sleep tonight  
But I can't forget your face  
When I close my eyes  
I can still feel your embraceHearing the saddest song  
Watching the world's just fall away  
Wondering just how wrong  
Has everything gone too far to changeHere I come  
Gonna make you feel OK  
This day's done  
Build another in its placeWas it all just a lie  
Dropped at somebody trying to play  
People will criticize  
It doesn't matter what they sayHere I come  
Gonna make you feel OK  
This day's done  
Build another in its placeNothing will last for long  
Even the stars collapse in space  
Maybe you'll hear this song  
Letting you know I'm on my wayHere I come babyThis day's done  
Build another in its place  
Oh babyIt's been too long  
Here I come baby
