

Disarray

Lifhouse

I've faced my demons
Wrestling these angels to the ground
And all that I could find
Was a thin line between
All the saints and villains
It was crossed in my own minds
Someday I'm gonna find it
Wish I knew what I was looking for
Inside the disarray (inside the disarray)
I woke up this morning
Dont know where Im going
But its alright
I wouldn't have it any other way
Struggling between the facts and fiction
Im alone
But I'm alive
Everyone around me is trying to make a statement, then there's me
Im just trying to survive
Someday I'm gonna find it
Wish I knew what I was looking for
Inside the disarray (inside the disarray)
I woke up this morning
Dont know where Im going
But its alright
I wouldn't have it any other way
If this was any other day
I pretend to know where I stand
I Just dont know (just dont know)
I Just dont know
Someday I'm gonna find it
Wish I knew what I was looking for
Inside the disarray (inside the disarray)
I woke up this morning
Dont know where Im going
But its alright
I wouldn't have it any other way
Someday I will find it
Wish I knew what I was looking for
Inside the disarray (inside the disarray)
I woke up this morning
Dont know where Im going
But its alright
