Glass and the Ghost Children

Smashing Pumpkins

To the center of the earth or anywhere God decides
Full of fever pulling forth we hear our call as all
To the center of the earth as if written in

DNA is reaching out to your frequencyI want to live don't want to die

I want to live, I want to try

All in prayer, prayer in all

All are scared, scared of allBlack rooms are calling to men in leather coats

White labs are cooking up the silver ghost

The glass migrates under her translucent skin

And all the spiders wonder what we've got us in All is you, you are all

All with you, you in all

I want to live, I don't want to die

I want to live, I want to trySo beats the final coda of our vinyl storm

One more cherry cola to lift up her dead arms

A dream of soft focus sunsets filters through the din

We are losing contact as she dials it in She can hear glass calling

Or is it someone that looks like him

She eyes TV reflection and nods a knowing look

She says it doesn't matter, she never liked her looksI have seen a thousand fractures, I have seen everything

Cause knowing is it's own answer love something in a book

There's not much left to ponder not much left to cookAs she counted the spiders

As they crawled up inside her As she counted the spiders As they crawled up inside her
