

# Round About Way

[George Strait](#)

As far as all my friends can tell, I took her leavin' well, that's kinda right

'Cause when I'm out with them, I don't let her memory rule the night

For the most part I'm okay

But I still miss her in a round about way Around about the time that midnight rolls around

That's around about the time my tears start fallin' down

'Cause she's not around I come unwound and my heart breaks

Yeah, I still miss her in a round about way I no longer sit alone for hours by the phone wishin' she would call

And just the other day I took her smilin' face down off my wall

I've come a long, long way

But I still miss her in a round about way Around about the time that midnight rolls around

That's around about the time my tears start fallin' down

'Cause she's not around I come unwound and my heart breaks

Yeah, I still miss her in a round about way

Yeah, I still miss her in a round about way
