

# Flash Gordon's Ape

## Captain Beefheart

You jumped when the air hit your eyes  
You wanted t' go back but there wadn't none  
Now you been going back for so long  
That you think there is one  
It makes me laugh to hear you say how far you've come  
When you barely know how to use your thumb  
So you know how t' count t' one  
You messed in the sky picked a banana an' threw it  
At the sun  
You saw a flash in the water now there ain't one  
You brought back somethin' that wasn't there  
You brought back somethin' that wasn't fair  
Pull back the adhesive tape  
You're in ah scrape  
Take to to your trees  
There's no escape  
The leaves are gettin' faker everyday  
Flash Gordon's ape  
Your too day
