

Over Now

Submersed

Think of the times together
When nothing seemed to matter
The tears we cried for
The days we leave behind
Never wanted anything that hurt like this
Fading, it's over now, over now
(Don't you know it's over now?)
(You know it's over now)(Some kind of big surprise)
Fading out, burning down
(Don't you know your world is burning down?)
(Your world is burning down)Don't try to make me stay
I need to try to find my way, yeahIt's over now, over now
(Don't you know it's over now?)
(You know it's over now)Living estranged
I've fallen into a life forgotten
So cold and helpless
I'll heal inside this storm
Never wanted anything that hurt like this
It's over now, over now
(Don't you know it's over now?)
(You know it's over now)(Some kind of big surprise)
Fading out, burning down
(Don't you know your world is burning down?)
(Your world is burning down)Don't try to make me stay
I need to try to find my way, yeahIt's over now, over now
(Don't you know it's over now?)
(You know it's over now)(Fading)
It's over now, over now
(Fading)
I'm fading out, burning down
Don't try to make me stay
I need to try to find my way, yeahIt's over now, over now
(Don't you know it's over now?)
(You know it's over now)It's over now, it's over now, over now
(Fading)
