Lifetimes

Kismet

Take off your halo, take off your golden crown
The spotlight's off, the shades are down
Where are your friends now, they're ghosts in a windowpane
Sometimes it's hard to stay the same
And we can live lifetimes in a single day
No matter what you do, I love you anyway
You say if you're lost inside, I get lonely too
Even in the worst of times, I give my best to you
I dreamed I was swimming, fighting the undertow
Drifting in circles, no place to go
And when I woke up, I was wringing wet
So much stronger than before

And we can live lifetimes in a single day
No matter what you do, I love you anyway
You say if you're lost inside, I get lonely too
Even in the worst of times, I give my best to you
The words escape the silence made
The looks betray, I'm not afraid
We can live lifetimes in a single day
No matter what you do, I love you anyway
You say if you're lost inside; well, I get lonely too
Even in the worst of times, I give my best to you
Even in the worst of times, I give my best to you
