Scream

L.A. Guns

How come every time I think
I've got it all worked out
Some one comes and turns it over
Turns it upside downI ride these city streets at night
Sometimes I do things that ain't right
A lonely heart, tears me apart
Some times I just want to screamShould we all go down together
I don't really care
Rather lose in Babylon
Than make it anywhereI rode this town for 13 years
I've seen sinners, saints and queers
You best believe, you can never leave
Some times I just want to screamYou scream
You make me scream
You make me screamYou, you make me scream
You make me scream
You make me screamHow come every time I think
I've got it all worked out
Some one comes and turns it over
Turns it upside downI rode this town for 13 years
I've seen sinners, saints and queers
A lonely heart, tears me apart
Some times I just want to screamScream
Want to scream
You make me scream
YeahWant to scream
You make me scream
You make me scream
