

Generation Lost

Motionless in White

Throw your hands in the air, let's start this shit
We are the name of the game, putting filth on the map
The right side of the reason, the wrong side of the tracks
It's not the fame or the game we crawled out of the dirt
'Cause I still can't fill my pockets with my name on your shirt
Yeah we play (play), scream (scream), and get up
off our knees (knees)
We ignite to excite, we're taking back the night
Generation lost, we don't sleep at night, we don't give up
Generation lost (clench your fist and punch your eyes)
Generation lost (want you to think that we've had enough)
Generation lost (they don't think what's in the sky)
We are the beacon of hope, the dark side of the light
We always aim for the float, we only come out at night
If you do mollies you should see my correction
You're sharing copies but you're lacking impression
Now we play (play), all day, so get up off our feet
We ignite to excite, throw your hands in the air and scream
Generation lost, we don't sleep at night, we don't
give up
Generation lost, clench your fist and punch your eye
Generation lost, want you to think that we've had enough
Generation lost (They don't think what's in the sky)
Holding up to save yourself
And terrorize like no one else will
And screaming out some way out done
We'll live forever in the emptiness
Coast to coast I hear the masses calling
Turn up now this is your final (warning)
Throw your hands in the air, let's start this shit
Generation lost, we don't
sleep at night, we don't give up
Generation lost, clench your fist and punch your eye
Generation lost, want you to think that we've had enough
Generation lost, they don't think what's in the sky
