

The Way You Used to Do

Queens of the Stone Age

When I first met her she was seventeen
Seventeen
Jump like an arsonist to a perfect match
Burned alive We run 'til no one could find us
Girl, we outrun everyone But it doesn't matter now
Just come and love me how
Like the way you used to do
Yeah Is love mental disease or lucky fever dream?
Fine with either
Gave birth to monsters who will terrorize normalcy, yeah
They'll terrorize
If the world exploded behind us
I never noticed if it done
Let nobody dare confine us
I'll bury anyone who does But it doesn't matter now
Just come and love me how
Like the way you used to do Now
The way you used to do My heart, a ding-a-ling
A puppet on a string
C'est la vie
So lay your hands across my beating heart, love If the world exploded behind us
I never noticed if it done
Let nobody dare confine us
I'll bury anyone who does
But it doesn't matter now
Just come and love me how
Like the way you used to do Used to do
Like the way you used to do
Come and love me now
The way you used to do
The way you used to do
