

# Bring Me Home

Millencolin

I've had a thorn in my heart, it was there from the start  
I had a life it was sad, it was all I had  
I died a bit every day  
I had a girl she was fine, we could walk the line  
A fat house and a car, thought I was a star  
I died a bit every day And when the lights go out, you can see me go  
All filled up with doubts, yeah it's all I know Then you tell me,  
Get up, come on, don't worry now my old friend  
Get up, come on, together now there's no end  
Get up, come on, we'll show them now the way we roam  
I'm gonna bring you home I had a change for the good, hope you understood  
I had to go underground and you were not around  
I improve a bit every day  
I've got no girl, no big house, still I'm living large  
Got the peace in my mind it was hard to find  
I fight and now it's looking bright And when the lights go out, you can see me go  
With a smile on my face, yeah it's all I know And I tell you  
Get up, come on, don't worry now my old friend  
Get up, come on, together now there's no end  
Get up, come on, we'll show them now the way we roam You know I'm gonna tell you  
Get up, come on, don't worry now my old friend  
Get up, come on, together now there's no end  
Get up, come on, we'll show them now the way we roam I'm gonna bring you home  
Yeah, I'm gonna bring you home  
Oh, I'm gonna bring you home  
Yeah, I'm gonna bring you home  
Yeah, get up, come on  
Don't you worry now my old friend  
Get up come on Yeah, I'm gonna bring you home  
Get up, come on, don't worry now my old friend  
Get up, come on, together now there's no end  
Get up, come on, we'll show them now the way we roam You know I'm gonna tell you  
Get up, come on, don't worry now my old friend  
Get up, come on, together now there's no end  
Get up, come on, we'll show them now the way we roam I'm gonna bring you home
