I Saw You

Scott Grimes

I saw you
Don't think you saw me
"cause if you did
You wouldn't be this way
You'd wanna know what's on my mindDon't call me lover
"cause I don't know who would answer
There seems to be two of us in that boat right now
So I guess I'll sail awayI heard you might be lonely
And you got no time for me
Well I've never seen that face before
It's something I guess I'll never seeI heard you might be leaving me
Guess my life will go on without you
Guess there's no good way to say goodbye
So I'll be on my wayI heard you might be lonely
And you got no time for me
Ooh, well I've never seen that face before
It's something I guess I'll never see, noI saw you
Don't think you saw me
"cause if you did, you wouldn't be this way
You'd wanna know what's on my mindI heard you might be lonely
And you got no time for me
Well I've never seen that face before
It's something I guess I'll never see, no, yeah
Never seen that face before, hey yeah yeah
Don't take me, hurt me, heart away
"cause I got something to say...
