

Geometry

Dave Hollister

You make it hard for me to concentrate
I get stuck on your masterpiece, your geometry
Every angle, baby, you're 360 every curve
Light a candle honey 'cause tonight I wanna learn
The way your body setup, you could bring a brother to his knees
Oh, baby
Whatever your mama fail you, served you well from your head to your feet
Oh, baby
You got me like oh, my God
Girl, what you're doing? Don't stop now!
Your legs, your hips still pass, glad they're on me for my [?]
It ain't easy 1, 2, 3
You make it difficult for me to look at you, stay on track
Just want you to know that
You make it hard for me to concentrate
I get stuck on your masterpiece, your geometry
Every angle, baby, you're 360 every curve
Light a candle honey 'cause tonight I wanna learn
You're a welcome distraction, girl when you interrupt me
We're in love latest fashion
Now my mind's on your body
You bring me up from down, drive the silence to sound
Girl, you're amazing how do you do
How? Tell me, baby!
Girl, what you're doing? Don't stop now!
Your legs, your hips still pass, glad they're on me for my [?]
It ain't easy 1, 2, 3
You make it difficult for me to look at you, stay on track
Just want you to know that
You make it hard for me to concentrate
I get stuck on your masterpiece, your geometry
Your measurements, I sleep on the evidence
That you came from above, turn me up
I'm in love
I wanna learn every way, [?]
Forgive me there, on this way
You make it hard, baby, hard for me
Yeah
What you do to me, baby?

Your geometry!
Baby, you're a beautiful distraction
Yes, you are
You make it
