Love Is the Answer

Joi Cardwell

Love is the Answer
Yes it isSometimes in life
We must fight
To do the things
That seem right
Youll never know
The places you will go
Challenges that you will meet
On your chosen roadBut love is the answer
When you dont know
How you will find your way
I know it seems like
Its all a dream
But I know that its
Within your reachWe must try to be divine
Seeking higher ground
In our hearts and mind
We can see
the forest and the trees
Sky the earth and all mankind
just need to believeThat love is the answer
When you dont know
How you will find your way
I know it seems like
Its all a dream
But I know that its
Within your reachIts with hope and with love
Well find joy
and that is our future .
