

# Reunited

## Broken Hope

An incestuous relationship between mother and son  
As last rites were read I had tell such a void  
A loving mother, my life-giver and lover  
She went away when she slashed her own wrists  
The relationship with me was too much to bear  
I watched her buried, her funeral, my heartbreak  
As last rites were read I left such a void  
I had to intimately feel her once again  
I dig deep into my mothers sepulcher  
Her cold, dead flesh soon stirs my lust  
Stiffened legs spread to be fucked  
My undying live, a son's sick obsession Forcing myself into my mommy's rigor mortis twat  
We are finally reunited once again  
As i engross myself in interment intercourse  
I unknowingly contract a supernatural disease  
With incestuous necrophilism there is a price  
Malodorous malediction from exanimate cunts  
An uncanny imprecation  
The offensive stink fills my senses With each stroke of my penis inside  
"Mommy, sweet mommy" I scream as I ejaculate  
Her flesh, healthy semen conditions her dry, rigid femme canal  
Pleasure short lived  
For when I pull out of the disinterred fuck  
The smell that was created could sicken the dead Forcing myself into my mommy's rigor mortis twat  
We are finally reunited once again  
As I engross myself in interment intercourse  
I unknowingly contract a supernatural disease  
With incestuous necrophilism there is a price  
Maladorous malediction from exanimate cunts  
An uncanny imprecation  
The offensive stink fills my senses
