Let Me Have It All

Color Me Badd

You have turned into a prayer
I can feel you almost there
Closer, closer to the top
Lookin' down is quite a dropLet me have it all
Let me have it all
Come on let me have it all
Let me have it allHold no grudge from yesterday
It got up and flew away
I want my cake and eat it too
Can't wait to stick my fork in you
Make me feel just like a king
Everything is everythingCome on let me have it all
Let me have it all
Let me have it all
I've got to have it allYou have turned into a prayer
I can feel you almost there
You set up a barrier, yeah
Don't ya know I'll marry youJust to be near you is to be
Let me have the rest of me
Closer, closer to the top
Lookin' down is quite a dropYou've got, got to
Let me have it all
Let me have it all
Wanna let me have it all
Let me have it allLet me have it all
Let me have it all
Let me have it all
...
