

# Today Never Ends

[PAUW](#)

Up in the sky, we're floating in circles  
Nowhere we need to go  
Let's stop the time and become eternal  
I've got a lot to show When our minds become one  
We will rise with the sun  
Let's stay if you can  
For today will never end Our dreams are taking over reality  
It will make all light glow  
Let's forget about all thoughts and memories  
Nothing we need to know  
When our minds become one  
We will rise with the sun  
Let's stay if you can  
For today will never end Stuck in an endless spiral we live in  
We need to get outside  
Let's go to places daylight has never been  
And hope we'll never be found  
When our minds become one  
We will rise with the sun  
Let's stay if you can  
For today will never end
