

Unto The Breach

Clutch

The burden of a time lord is there's never any time
Too much of eternity and nowhere to unwind
Hobgoblins and morrismen fighting in the streets
Hot continuum breakdown give them lightning
Waiting on the corner for the swiss guard to arrive, to arrive
And when they do we'll battle them and rattle them
Halberd versus mind, versus mind
Once more unto the breach
Like the Gutenberg bible, we're the movable type
Very transient, very influential
Like the large hadron collider, the more you see the less you understand
The atmosphere's getting volatile
Waiting on the corner for the swiss guard, to arrive to arrive
And when they do we'll battle them and rattle them
Halberd versus mind, versus mind
Once more unto the breach
Dalek goon squad. black shirt master
Hit 'em where it hurts
Full on psychic blaster.
Plague doctors and subhumans
Can you feel the heat
The atmosphere's getting hectic
The atmosphere's getting volatile
Waiting on the corner, for the swiss guard to arrive, to arrive
And when they do we'll battle them and rattle them
Halberd versus mind, versus mind
Once more unto the breach
Once more unto the breach
Once more unto the breach
