

Easy Love

[BoDeans](#)

Dignity is a graceful leaf
Love that earth
And plant that seed
Roots grow deep
And a tree stands tall
You know, that easy come is easy go
And easy love ain't really love at all
Honesty needs integrity
Simplicity is the hardest thing.
Forgiveness lives down a long dark hole
You know, that easy come is easy go
And easy love ain't really love at all
Understanding lives in an open heart
Where one small step can be one great start
Then you have something real, not small.
You know that easy come is easy go
And easy love ain't really love.
No, easy come is easy go, and easy love ain't really love at all.
